KAHLES

SINCE 1898

We at KAHLES share the passion and professionalism of ambitious shooters and hunters.

We passionately support their aspiration to continually enhance performance.

We do this with intuitive simple and smart products, which impress with uncompromised focus on the real essentials, based on profound user insight and a wealth of know-how.

K525i

PROFESSIONAL CHOICE FOR HIGHEST DEMANDS

The K525i combines maximum optical performance and precision with unique handling and ergonomics. A rugged riflescope for professionals, with windage optional left or right, precise illuminated reticles in 1st focal plane and the unique TWIST GUARD windage.

5-25x56i

PRODUCT HIGHLIGHTS

- Maximum optical performance – field of view, high contrast image, high definition
- Absolutely reliable repeat accuracy and precise, clearly defined click mechanism
- Optional left or right side windage
- Parallax wheel integrated into the elevation turret (patented) 20 m – ∞
- Innovative TWIST GUARD windage (patented)
- Precise illuminated reticle in 1st focal plane

FEATURES

RETICLES

Parallax wheel integrated into the elevation turret (patented), windage optionally left or right.

Superior handling and ergonomics thanks to the unique arrangement of operating elements

Due to the unique arrangement, all operating elements can easily and comfortably be operated with the intuitively preferred hand. Without having to reach over the riflescope or having to move out of the shooting position, all relevant information is always in the visual field.

All riflescopes of the K-series have the parallax wheel integrated into the elevation turret.

The patented central arrangement on top of the riflescope makes right and left-handed operation equally comfortable.

Ergonomically the windage is perfectly placed on the left side for right-handed shooters and on the right side for left-handed shooters.

Unique TWIST GUARD windage (patented)

TWIST GUARD windage.

The innovative TWIST GUARD windage with its freely rotating end cover, reliably preventing accidental movement of the windage.

This simple solution not only protects the windage from accidental movement, it also allows the shooter fast and unhindered handling of the windage without the need for cumbersome “locking” and “unlocking”.

Maximum precision with the special MOAK reticle and 1/4 MOA click adjustment

MOAK turret with three planes of rotation and indicator pin.

The 1/4 MOA click adjustment and a perfectly designed reticle in the 1st focal plane guarantee maximum precision over long distances. The specially designed MOAK turret has a 3rd rotational plane and allows simple, precise operation over the entire adjustment range.

K318i

ULTRASHORT PRECISION TOOL

The K318i means optical and mechanical perfection packed into an ultrashort design. With precise illuminated reticles in 1st focal plane, sharply defined throughout the entire magnification range and the unique TWIST GUARD windage.

3.5-18x50i

FEATURES

RETICLES

PRODUCT HIGHLIGHTS

- Ultrashort and lightweight riflescope with wide field of view and high contrast image
- Absolutely reliable repeat accuracy and precise, clearly defined click mechanism
- Optional left or right side windage
- Innovative TWIST GUARD windage (patented)
- Parallax wheel integrated into the elevation turret (patented) 25 m – ∞
- Precise illuminated reticles in 1st focal plane

6-24x56i

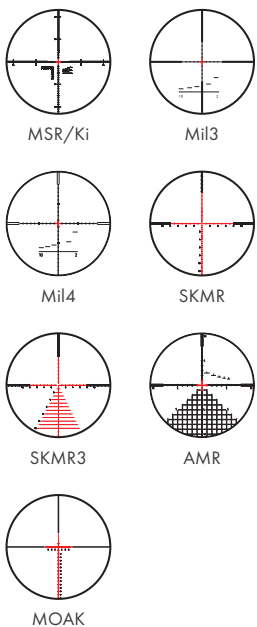

K624i PROFESSIONAL CHOICE FOR LONG DISTANCES

The K624i sets standards in handling and ergonomics thanks to the unique arrangement of its operating elements. It offers outstanding optical performance, mechanical perfection and a unique range of well proven reticles for professionals.

FEATURES

RETICLES

PRODUCT HIGHLIGHTS

- Wide field of view, exceptionally comfortable eyepiece and high contrast image
- Precise, clearly defined click mechanism and reliable repeat accuracy
- Optional left or right side windage
- Parallax wheel integrated into the elevation turret (patented) 50 m – ∞
- Precise illuminated reticles in 1st focal plane

3-12x50i

K312i TACTICAL TOOL FOR PROFESSIONALS

The K312i sets standards in handling and ergonomics thanks to the KAHLES exclusive arrangement of its operating elements. It provides outstanding optical performance, a well proven magnification range and practical reticles.

FEATURES

RETICLES

Mil7

PRODUCT HIGHLIGHTS

- Professional riflescope with excellent optical performance and perfect click mechanism
- Left side windage
- Parallax wheel integrated into the elevation turret (patented) 25 m – ∞
- Precise illuminated reticles in 1st focal plane

10-50x56

K1050 COMPETITION SHOOTING WITH EXTREME MAGNIFICATION

The K1050 has been specifically designed to provide optimum precision for competition shooting. Weighing just 890 g and only 429 mm long, with its unique parallax adjustment, starting from just 8 metres, it provides unparalleled precision.

FEATURES

RETICLES

MOAK

Crosshair Dot

PRODUCT HIGHLIGHTS

- Maximum precision for competition shooting
- Perfect image quality, even at 50 x magnification
- Parallax wheel integrated into the elevation turret (patented) 8 m – ∞
- Non-illuminated reticle with fine structure for maximum precision

K1050i FT FIELD TARGET FOR PERFECTIONISTS

The K1050i FT offers a uniquely precise experience. With the special parallax focus ranging from 8 to 60 metres and an illuminated reticle in the 2nd focal plane, it has been optimally designed for field target competitions.

PRODUCT HIGHLIGHTS

- Developed together with professionals for highest precision in field target competitions
- Perfect image quality, even at 50 x magnification
- Parallax wheel integrated into the elevation turret (patented) 8 – 60 m
- Illuminated reticle with fine structure for maximum precision
- Also available with silver coating

10-50x56i

Also available in silver coating

K18i

THE MATCH WINNER

Optimized for IPSC and 3-Gun matches, the K18i with 8 x zoom features an ultra-wide field of view, specially designed, extra-bright illuminated reticles with unique MAX LIGHT function and an individually adjustable throw lever.

PRODUCT HIGHLIGHTS

- Optimized for IPSC and 3-Gun matches
- Ultra-wide field of view, 8 x zoom and true 1 x magnification
- Integrated throw levers in 2 alternative sizes with infinitely adjustable positions
- Extra-bright day/night illumination in 2nd focal plane with MAX LIGHT function for extreme backlight situations
- Special reticles for IPSC and 3-Gun, designed with the support of recognized pro-shooters

K16i

FAST TARGET ACQUISITION IN TOUGHEST ENVIRONMENTS

The K16i is ideal for acquiring targets within a very short time thanks to its ultra-wide field of view. Shooters benefit from the extra-high nose and the large, easy to use adjustment ring.

FEATURES

RETICLES

PRODUCT HIGHLIGHTS

- Sporty riflescope with ultra-wide field of view for fast target acquisition
- Developed for even the toughest demands
- Extra bright illuminated reticles in the second focal plane
- 3GR reticle for IPSC and 3-Gun

4x30i

K4i FAST TARGET ACQUISITION WITH 4 X MAGNIFICATION

The K4i has been designed for the toughest demands and is optimised for fast target acquisition and a maximum overview at short to medium distances.

FEATURES

RETICLES

Circle Dot

PRODUCT HIGHLIGHTS

- 4 x optics with extra large exit pupil, 91 % light transmission and diopter compensation
- Durable prism design with illuminated reticle, continuously adjustable
- Precise click adjustment 1.5 cm/100 m
- Ergonomic design and rugged construction
- Three integrated Picatinny (MIL STD 1913) rails for attaching accessories
- Includes integrated Picatinny mounting

HUNT

kahles.at

HELIA 1-5x24i

IDEAL FOR DRIVEN HUNT

The HELIA series impresses with uncompromising focus on the real essentials: functionality, reliability, handling and aesthetics. The perfect tool for hunting.

1-5x24i

PRODUCT HIGHLIGHTS

- Real compact driven hunt optics with an ultra-wide field of view reaching 42 m/100 m
- Powerful optics system with exceptional edge sharpness
- True 1 x magnification for irritation-free viewing with both eyes
- Extra-bright day/night illuminated reticle with intelligent automatic switch-off

FEATURES

RETICLES

4-DH

OPTIONAL

HELIA 2-10x50i PERFECT FOR STALKING GAME

The HELIA series impresses with uncompromising focus on the real essentials: functionality, reliability, handling and aesthetics. The perfect tool for hunting.

2-10x50i

PRODUCT HIGHLIGHTS

- Light and compact game stalking optics
- Perfect all-rounder with large, high-contrast field of view and excellent performance during dawn and dusk
- Powerful optics system with exceptional edge sharpness
- Day/night illuminated reticle with intelligent automatic switch-off

FEATURES

RETICLES

4-Dot

OPTIONAL

HELIA 2.4-12x56i TOP-CLASS FOR HIDE/STAND HUNTING

The HELIA series impresses with uncompromising focus on the real essentials: functionality, reliability, handling and aesthetics. The perfect tool for hunting.

2.4-12x56i

PRODUCT HIGHLIGHTS

- Ideal for hide/stand hunting with exceptionally high light transmission, whether dawn, dusk or night
- Perfect image with best contrast and wide, brilliant field of view
- Powerful optics system with exceptional edge sharpness
- Day/night illuminated reticle with intelligent automatic switch-off

FEATURES

RETICLES

OPTIONAL

HELIA 3 4-12x44i FOR STALKING AND MOUNTAINS

The HELIA 3 series combines classic elegance with the high-quality technology and superb, premium optics. Existing attachments for 1-inch main tubes can still be used in most cases.

PRODUCT HIGHLIGHTS

- Brilliant optics for stalking and hunting in the mountains
- Classic slim design with 1-inch main tube Ø (25.4 mm)
- Aluminium main tube anodised in black matt-finish with scratch-resistant surface
- Day/night illuminated reticle with intelligent automatic switch-off
- 12 x magnification, weighting just 485 g

4-12x44i

HELIA RD

RED DOT SIGHT

FOR DRIVEN HUNT

The HELIA RD has been designed for the intuitive shot. It features an unique Anti-Reflexion coating for clear visibility and a precise 2 MOA dot for minimum target covering.

PRODUCT HIGHLIGHTS

- Unique Anti-Reflexion coating for clear visibility
- Precise 2 MOA dot and Easyclick
- Picatinny mount or adapter plate for most popular European mounts included
- 4 manual illumination settings with intelligent automatic switch-off
- Easy to change battery

HELIA RD

FEATURES

Protective cap with compartment for spare battery

AUTOMATIC-LIGHT

The intelligent reticle illumination for longer battery life

Automaticlight

All illuminated hunting riflescopes are equipped with a tilt sensor. This detects whether or not the riflescope is in a shooting position. The sensor transmits this information immediately to the illumination unit and controls thereby its switching on and off, in order to save valuable energy when not in use.

Active mode

- The switched on reticle illumination with automaticlight is always active in the angular range of 75° (right/left).

Standby mode

- After being motionless for 2 minutes in active mode, the backlight turns off and enters "Standby" mode. For reactivation from the "Standby" mode the smallest movement is sufficient and the reticle illumination is activated in fractions of a second with the last selected brightness.
- Angles ranging from 45° – 75° (up/down) trigger the "Standby" mode, regardless if motion is sensed or not after 2 minutes.
- From an angle range of more than 75° (up/down/side), the reticle illumination switches off immediately and switches to "Standby" mode.

After 2 hours of inactivity, the lighting switches off completely. To reactivate the lighting unit, the rotary switch must be switched off and on again.

HELIA RD

The HELIA RD is equipped with a motion sensor. After being motionless for 3 minutes, the red dot turns off and enters "Standby" mode. In the "Standby" mode, the smallest movement is sufficient to re-activate the red dot in fractions of a second with the last selected brightness level. After 4 hours of inactivity, the red dot switches off completely.

BALLISTIC DROP COMPENSATION

The ideal assistant for quick shots on longer distances

Ballistic Drop Compensation (optional)

Work out the distance – adjust the ballistics – and go!

With the KAHLES ballistic drop compensation (BDC) achieving reliable shooting accuracy has never been so easy and straightforward. It eliminates the need to guess how far to aim above the target, no matter how far away it is. It excels with simple use and rugged design.

All products, which are available with the KAHLES BDC are marked with the icon above.

The click adjustment tool, combined with the ballistic ring, enables the required shooting distance to be set extremely quickly and intuitively. The rugged case cover protects against accidental movement of the elevation as well as all kinds of external hazards. The cap can quickly be folded up, a magnetic lock prevents from accidental opening.

An opening on the case of the KAHLES ballistic drop compensation device, positioned to be within the user's field of view, makes it easy to read and check the values that have been set, even when the case is closed.

HELIA RF-M FAST DISTANCE MEASURING

The compact HELIA RF-M 7x25 offers ergonomic design, intuitive and simple handling and is equipped with a large field of view and relevant hunting features. You are able to measure the distance simple and fast and you can concentrate, during the hunt, on the real essentials.

PRODUCT HIGHLIGHTS

- Easy and reliable targeting up to 2,000 m
- Ergonomical design, intuitive handling, simple menu navigation
- Exceptional edge to edge clarity and large field of view of 117 m/1,000 m
- Premium-quality OLED display with five manual brightness settings and display in meter or yards
- EAC-function (Enhanced Angle Compensation) for angle correction (patented)
- Scan mode, temperature- and air pressure measurement
- Extra long battery lifetime ~ 4,000 measurements

7x25

RANGEFINDER

*NEW as of April 2020

HELIA 42 RF

COMFORTABLY EASY AND RELIABLE

The lightweight and ergonomic HELIA RF perfectly combines high performance optics with intuitively simple and reliable targeting up to 1,500 m. With scan mode and patented EAC (Enhanced Angle Compensation) function.

PRODUCT HIGHLIGHTS

- Easy and reliable targeting up to 1,500 m
- EAC-function (Enhanced Angle Compensation) for angle correction – patented
- Intuitive simple menu navigation
- Premium-quality OLED display with five manual brightness settings and display in meter or yards
- Scan mode for continuous measurement
- Extra long battery lifetime ~ 3,000 measurements
- Lightweight and ergonomic binocular with innovative Waldkauz® loden protective cover and leather strap

BINOCULAR

8x42; 10x42

HELIA 42 IDEAL FOR STALKING AND HUNTING IN THE MOUNTAINS

The natural colours, the lightweight, balanced design with the open bridge and the unique, silent protective cover made of high-quality loden cloth are perfectly suited for inconspicuous carrying and observing on the hunting ground.

PRODUCT HIGHLIGHTS

- Natural, earthy colours
- Lightweight and balanced with ergonomic open bridge design
- Superb image quality in daylight, as well as at dawn or dusk
- Rugged, fog-free and waterproof
- Innovative accessories made of high-quality and noiseless natural materials made by Waldkauz®

HELIA 56 MADE FOR THE NIGHT

The light sensitive HELIA 8x56 is perfectly right for the night. It persuades with a brilliant optic. Its pronounced individuality is underlined by the ergonomic design, the natural colour and the Waldkauz® leather strap with its well matching colours.

PRODUCT HIGHLIGHTS

- Brilliant, clear image even at night
- Natural, earthy colours
- Rugged, fog-free and waterproof
- Waldkauz® leather strap with quick disconnect for easy removal
