Information of the Package/Shipment

Retour of decontaminated products:

The goods do not have to be specially marked for the transport if, due to the decontamination of the returned device, a load with infectious substances is excluded.

The packaging should be selected in such a way as to ensure safe transport.

Retour of not decontaminated products:

If the device cannot be decontaminated, please contact us before shipping.

Otherwise, we reserve the right to accept the consignment or we charge a processing fee of 190,- Euro for the reprocessing.

If you wish to return the contaminated device to us **after consultation**, please note the following:

The packaging of the device must be designed in such a way that it does not break, become pierced, or cannot be released. In addition, the packaging must be marked with the following label: "USED MEDICAL DEVICE".

Please attach this form to the return!
