

PYTHON

**LIGHTWEIGHT POCKET-SIZE
THERMAL VISION SPOTTING DEVICE
FOR ANY OUTDOOR ACTIVITY**

A-CORE MODULE

Superior image quality and proven precision in the hardest conditions

GREAT DETECTION RANGE

Combining a powerful F 1.2 lens and a sensitive sensor, PYTHON spots a human in up to 750 meters

SOPHISTICATED IMAGE ANYWHERE

Sensitive germanium objective lens with a 12-micron pixel pitch and a scratch resistant hard carbon coating

ENHANCED OBSERVATION PERFORMANCE

The auto contrasting scenes upgrade your outdoor vision and make you fully aware of changes in your sight

LIGHT AND COMPACT

At only 298 grams, PYTHON easily fits into your pocket or backpack

WIDE HORIZONTAL FIELD OF VIEW

With PYTHON's 20-meter horizontal field of view you always see more of your surroundings

NITEHOG IMAGE RAZOR TECHNOLOGY

Versatile software processing that ensures your clear and sharp vision in a variety of environmental conditions

IMAGE MODE FOR EVERY SITUATION

White hot, Black hot, Red hot, and Isotherm modes that give you more flexibility outdoors
